Yuki Hashimoto

Mediums

September 6 - 27, 2025

Opening Party: September 6, 6PM-8PM

eitoeiko is pleased to present "Mediums," an exhibition by Yuki Hashimoto, on view from September 6 to September 27. This is the artist's seventh solo exhibition with eitoeiko in the past two years.

Hashimoto's practice explores invisible boundaries, reweaving their relationships through the use of everyday materials as media. By transforming matter into fragments of society, he positions himself as a medium—an intermediary who opens doors to other realms and generates mythological worlds. We look forward to welcoming you to the exhibition.
